Re: FirstLight Hydro Generating Company, Turners Falls Hydroelectric Project (FERC No. 1889) and Northfield Mountain Pumped Storage Project (FERC No. 2485). Request for Extension of Time to Complete Archaeological Surveys

Dear Secretary Bose:

FirstLight Hydro Generating Company (FirstLight) owns and operates the Turners Falls Hydroelectric Project and Northfield Mountain Pumped Storage Project and is in the process of relicensing the facilities with the Federal Energy Regulatory Commission (FERC).

As part of the relicensing process for the Turners Falls Hydroelectric Project, FirstLight conducted a Phase IA reconnaissance level survey on 119,466 meters of shoreline within the Area of Potential Effect (APE). The Phase IA survey identified 24,425 meters of shoreline (all within the Turners Falls Impoundment {TFI} APE) as archaeologically sensitive and actively eroding. FirstLight proposed to limit Phase IB archaeological survey to an approximate 1,000 meter segment of shoreline in Massachusetts where FirstLight's Erosion Causation Study (Study No. 3.1.2) had determined that project operation was a partial contributor to erosion in that segment. FirstLight's Erosion Causation Study determined that the erosion at the remaining 23,425 meters of shoreline was not caused in whole or in part by project operation.

On February 27, 2017, FERC issued a Study Plan Modification Determination indicating that FirstLight should conduct Phase IB investigations along all legally-accessible portions of the 24,425 meters of shoreline. On March 20, 2017 FirstLight filed a request for rehearing of the Study Plan Modification Determination, contending that it should not be required to conduct Phase IB investigation on archaeologically sensitive lands in the absence of evidence of project effects on those lands. On March 15, 2018, FERC denied FirstLight's rehearing request and directed FirstLight to conduct the Phase IB archaeological survey on 24,425 meters of TFI shoreline and Phase II surveys, where applicable, by September 1, 2018.

Since the denial of the rehearing request, FirstLight has begun implementing the Phase IB surveys, including preparing Scopes of Work for Vermont and New Hampshire State Historic Preservation Offices (SHPO) approval, and receiving approval from the same to conduct Phase IB surveys in Vermont and New Hampshire. FirstLight also identified and attempted to contact all landowners in Vermont, New Hampshire, and Massachusetts to obtain consent to either access or conduct surveys on their property, as applicable, and notified Tribes and historical commissions of the impending archaeological survey work.¹

¹ By letter dated June 30, 2018, the Elnu Abenaki Tribe filed a letter with FERC, which requested that it be included in the service list for the archaeological survey (Study No. 3.7.1) and for the traditional cultural properties study (Study No. 3.7.3) and stated that it had not received notification of the initiation of Phase IB surveys. FirstLight has confirmed that the Elnu Abenaki Tribe is on FirstLight's distribution lists for Study Nos. 3.7.1 and 3.7.3. In

FirstLight completed Phase IB field work in Vermont in May 2018. On July 3, 2018, FirstLight submitted its report, which was prepared in accordance with Vermont SHPO guidelines, on the Vermont Phase IB fieldwork to the Vermont SHPO. Based on the absence of site findings, no Phase II studies have been recommended to the Vermont SHPO in the Vermont project APE.

FirstLight also completed Phase IB field work in New Hampshire in May 2018, with the exception of 1,375 meters of archaeological sensitive survey segments located on lands owned by Great River Hydro LLC (GRH), the licensee for the upstream Vernon Hydroelectric Project.² The Phase IB survey in New Hampshire resulted in the identification of two newly recorded sites in the project APE. Based on its review of the findings, the New Hampshire SHPO requested Phase II studies of both sites to evaluate NRHP eligibility. FirstLight completed Phase II field work at the two potentially eligible sites in June 2018 in accordance with the New Hampshire SHPO approved Scope of Work. FirstLight is currently analyzing the results of the Phase II field work and anticipates filing a combined Phase IB/II report with the New Hampshire SHPO, in accordance with their guidelines, by September 1, 2018.

FirstLight also submitted to the Massachusetts Historical Commission (MHC), a modified research permit application to conduct Phase IB (intensive) survey in Massachusetts. As a result of comments received from the MHC by letter dated May 17, 2018, FirstLight filed a revised modified permit application with the MHC by letter dated July 9, 2018. FirstLight is also in the process of obtaining required environmental approvals for the Phase IB archaeological survey work from Massachusetts state and local agencies. These approvals generally include a minimum 30-day review period, and in some cases, a public hearing process. Thus, FirstLight does not anticipate being able to commence Phase IB field work in Massachusetts until August 1, 2018 at the earliest. Commencement of field work in Massachusetts could occur after August 1, 2018 depending on the timing of receipt of a permit from the MHC and approvals from state and local environmental agencies.

Therefore, FirstLight requests that FERC extend the time in which to complete the Phase IB archaeological survey in Massachusetts. Of the 24,425 meters of TFI shoreline subject to Phase IB survey, 12,000 meters (almost 50% of the lands recommended for Phase IB survey) are located in Massachusetts. Assuming that FirstLight is able to initiate Phase IB field work in Massachusetts in August 2018, FirstLight anticipates completion of Massachusetts Phase IB field work in September 2018 and filing a report regarding the results of the Massachusetts Phase IB survey with the MHC by December 15, 2018. Therefore, FirstLight respectfully requests an extension of time to complete Phase IB survey work in Massachusetts until December 15, 2018. It is possible that FirstLight may request an additional extension of time in the event that Phase IB survey in Massachusetts results in recommendations for Phase II survey.

If you have any questions, or need additional information, please feel free to contact me.

Sincerely,

Douglas Bennett
Plant General Manager

addition, by letter dated May 7, 2018, FirstLight sent the Elnu Abenaki Tribe notification of the impending Phase IB archaeological survey work. See Attachment 1, which contains documentation of FirstLight's mailing of notification to Tribes and historical commissions regarding the impending Phase IB survey work but the notification was returned as undeliverable.

² On May 31, 2018, FirstLight filed a request for waiver of the requirement of to conduct Phase IB archaeological surveys on the lands owned by Great River Hydro. On June 21, 2018, FERC requested additional information from both FirstLight and Great River Hydro. FirstLight filed its response to FERC's Additional Information Request on July 16, 2018.

Re: Federal Energy Regulatory Commission Relicensing of the Turners Falls Hydroelectric and Northfield Mountain Pumped Storage Project, (FERC Nos. 1889 and 2485) – Notification of Phase IB Archaeological Field Studies.

Dear Ms. Peters:

On behalf of FirstLight Hydro Generating Company (FirstLight), TRC Environmental Corporation (TRC) will be conducting Phase IB archaeological survey and Phase II studies, as necessary, in support of the Federal Energy Regulatory Commission (FERC) relicensing of FirstLight's Turners Falls Hydroelectric Project and Northfield Mountain Hydroelectric Pumped Storage Project (Project) located in Franklin County, Massachusetts, Windham County, Vermont, and Cheshire County, New Hampshire. These studies will serve as a follow-up to the Phase IA archaeological reconnaissance conducted by TRC within the Project's Area of Potential Effect (APE) in 2014. The Phase IA was conducted to identify archaeologically sensitive areas along the shorelines of the Connecticut River and its tributaries.

The need for the Phase IB survey, and possible follow-on Phase II studies, is guided by FERC's Study Plan Determination issued September 13, 2013 (FERC 2013) and the 2014 Phase IA study, which identified a total of 24,425 meters (m) of shoreline in the Project's APE that were recommended for Phase IB survey. This includes 12,200 m of shoreline in Massachusetts, 5,350 m of shoreline in Vermont, and 6,875 m of shoreline in New Hampshire. The Project APE is shown on [Figure 1](#).

The archaeological studies will assist FERC in meeting its obligation under Section 106 of the National Historic Preservation Act (NHPA), as amended, to consider the effects of relicensing the Project on historic properties. This study, and any necessary future field studies, will identify known archaeological resources listed in, or eligible for listing in, the National Register of Historic Places (NRHP), and identify and assess any potential effects to these resources from continued operation and maintenance of the Project.

FirstLight is notifying you of the pending archaeological fieldwork and invites you or your representatives to accompany the archaeological field team during the field studies. Also FirstLight would be interested in any information you wish to share of the study area. As currently planned, the archaeological field team will be surveying the New Hampshire and Vermont portions of the Project beginning in the latter half of May, and the Massachusetts portion of the Project beginning in mid-June.

If you would like additional information about the archaeological investigations or have preliminary information to share on the cultural history of the study area, please do not hesitate to contact Richard Will, TRC Tribal Liaison, at (207) 461-9615, or rwill@trcsolutions.com.

If you have any questions, or need additional information, please feel free to contact me.

Sincerely,

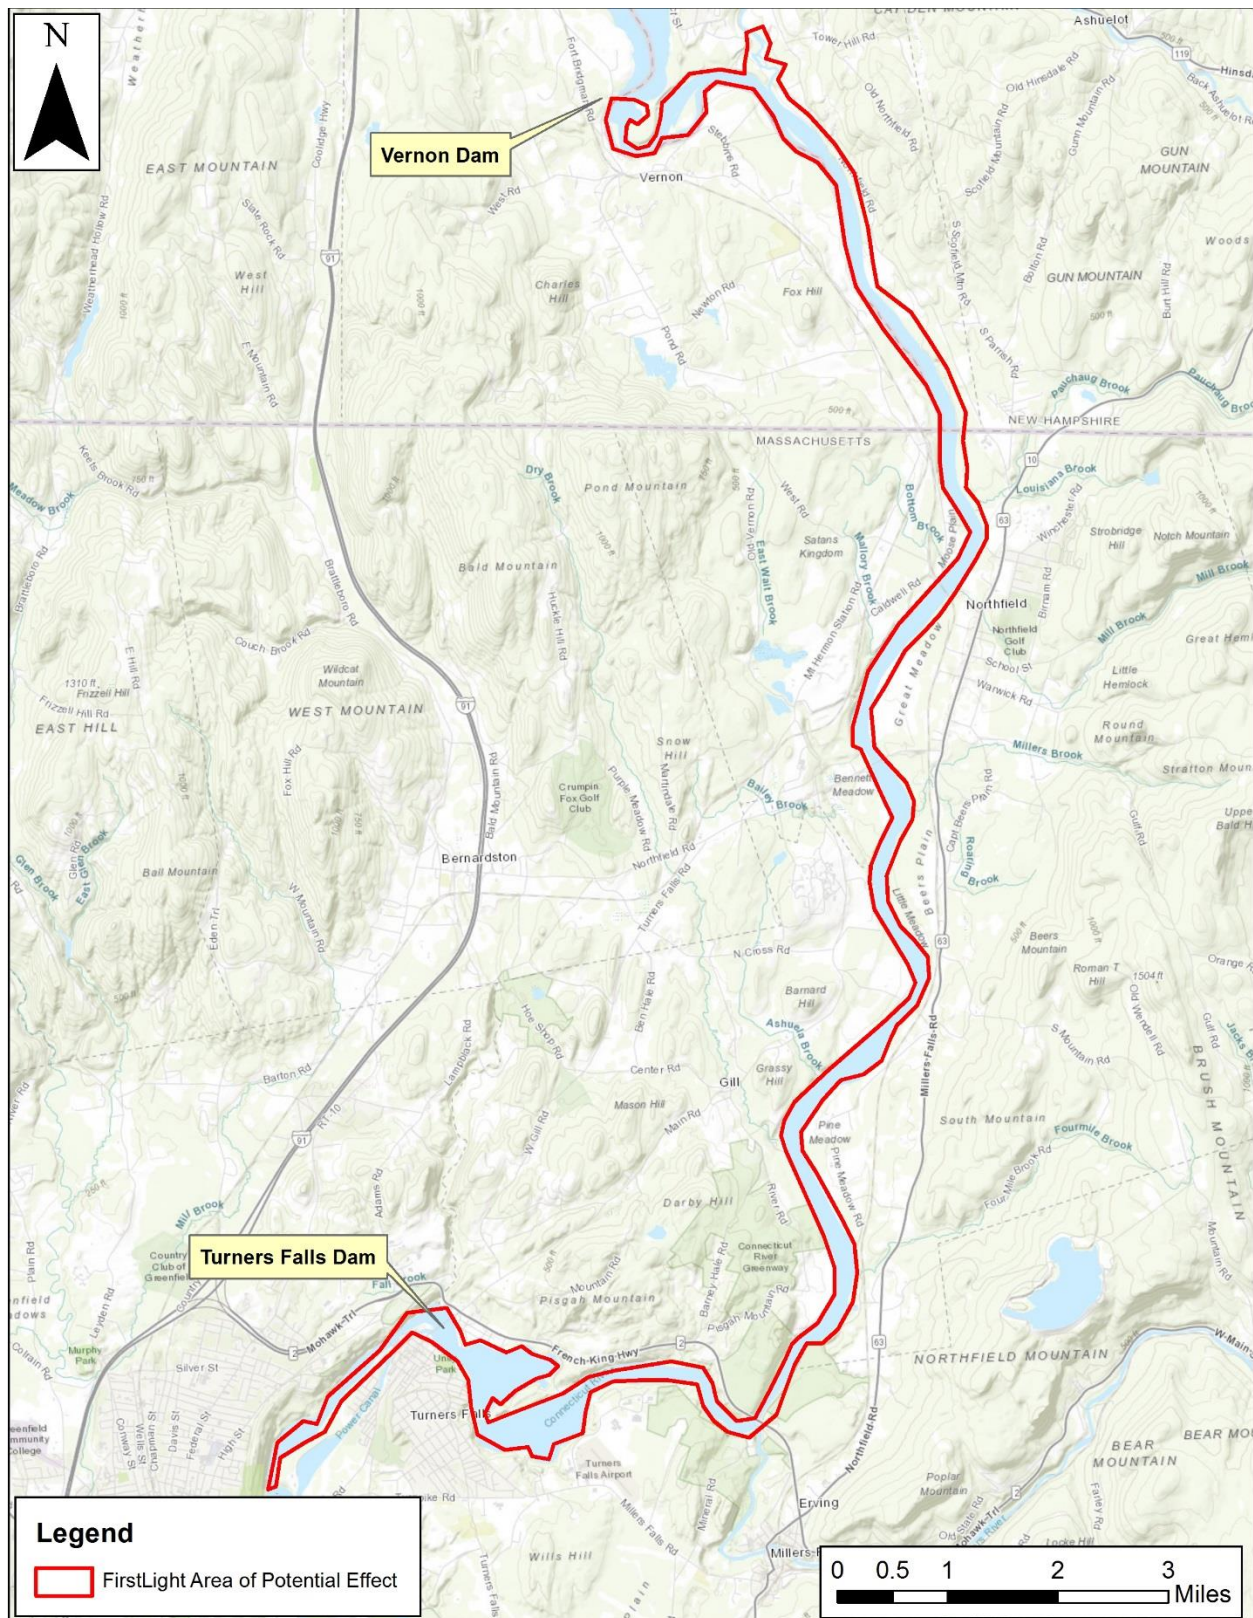

Douglas Bennett
Plant General Manager
