June 17, 2013

Extension of Time Request
FERC # 1889, 2485, 1904, 1855 and 1892

Kimberly D. Bose, Secretary
FERC
888 First Street, NE
Washington, DC 20426

Dear Secretary Bose,

Trout Unlimited supports the extension of time request by the United States Fish and Wildlife Service from July 15 to July 30 to provide final comments on the Draft Proposed Study Plans for all of the above listed projects.

This request is reasonable based upon the very limited study plans provided in the initial Draft Proposed Study Plans and the extended time period over which the numerous study plan meetings occurred. Significant and numerous comments were made at the meetings regarding the lack of detail in the draft plans which will require considerable updating and therefore considerable review by the stakeholders.

Additionally many stakeholders will be participating in First Light's field assessment for the IFIM study in the Turners Falls bypass which will occur during the week of July 7.

Sincerely,

A handwritten signature in black ink that reads "Donald Pugh". The signature is written in a cursive, slightly slanted style.

Donald Pugh
