Washington, DC 20426

Re: Addendum to Recreation Facilities Inventory and Assessment Report, Turners Falls Hydroelectric Project (FERC No. 1889) and Northfield Mountain Pumped Storage Project (FERC No. 2485)

Dear Secretary Bose:

FirstLight Hydro Generating Company (FirstLight) is currently in the process of relicensing its Turners Falls Hydroelectric Project (FERC No. 1889) and Northfield Mountain Pumped Storage Project (FERC No. 2485) with the Federal Energy Regulatory Commission (FERC). On September 15, 2014, FirstLight filed its Initial Study Report, which included the report for Study No. 3.6.2, *Recreation Facilities Inventory and Assessment*. On January 22, 2015, FERC issued its Determination on Requests for Study Modifications and New Studies, in which it recommended that FirstLight be required to file, within five months of the date of the letter (i.e., by June 22, 2015), an addendum to the report for Study No. 3.6.2.

In accordance with FERC's January 22, 2015 letter, FirstLight is hereby electronically filing the addendum to the report for Study No. 3.6.2, *Recreation Facilities Inventory and Assessment* with FERC. To access the addendum on the FERC website (<http://www.ferc.gov>), go to "eLibrary" link, and enter the docket number P-1889 or P-2485. FirstLight is also making the report available for download at the following website: <http://www.northfieldrelicensing.com/Pages/default.aspx>.

If you have any questions, or need additional information, please feel free to contact me.

Sincerely,

A handwritten signature in black ink, appearing to read "John Howard".

John Howard
